PREFACE

The Joint Legislative Economic Development and Global Engagement Oversight Committee is established in Article 120 of Chapter 120 of the General Statutes to serve as a permanent legislative commission to review issues relating to economic growth and development in the global economy. The Committee consists of twenty-two members and seven advisory members. The co-chairs for 2013-2014 are Senator Harry Brown and Representative Tom Murry.

The General Assembly created the Joint Select Economic Development Oversight Committee in 2003 based upon a recommendation of the Joint Select Committee on Economic Growth and Development to provide a standing study committee on the issue of economic development oversight. However, the committee went several years without members. Members were appointed for the first time in the fall of 2010 and met once in January 2011.

Since 2003, the General Assembly created two other committees in the area of economic development that influenced the purpose and scope of this Committee. In 2007, Senator Basnight and Speaker Hackney created a *Joint Select Committee on Economic Development Incentives*. That Committee contracted with the UNC Center for Competitive Economies and began the process of analyzing the effectiveness of the economic development programs supported by the State. One of the recommendations of the UNC Center report was to institute a legislative oversight function specifically to establish priorities for and assess performance of State and regional economic development agencies. This Committee can provide this legislative oversight function. In 2009, Senator Basnight and Speaker Hackney created the *Joint Select Committee on Global Engagement*. That Committee held meetings across the State and heard from parties interested in global economic development. At the recommendation of that Committee, the General Assembly expanded the scope of the 2003 Joint Legislative

Economic Development Oversight Committee to include global business opportunities.

In its study of the economic development and global engagement issues, G. S. 120-70.131 gives the Committee a very broad scope, stating that the Committee "shall examine economic development and global engagement issues and strategies in North Carolina in order to make ongoing recommendations to the General Assembly on ways to promote cost-effective economic initiatives, economic growth, and stimulating job creation in the global economy." A copy of Article 120 of Chapter 120 of the General Statutes is included in Appendix A. A committee notebook containing the Committee minutes and all information presented to the Committee is filed in the Legislative Library and may also be accessed online at the Committee's website: <http://ncleg.net/gascripts/Committees/Committees.asp>.

COMMITTEE PROCEEDINGS

The Joint Legislative Economic Development and Global Engagement Oversight Committee met six times after the adjournment of the 2013 Regular Session of the General Assembly on July, 26 2013. The Committee received regular updates from the Department of Commerce regarding implementation of the newly created Rural Economic Development Division and preparation for the public private partnership, also known as the Economic Development Partnership of North Carolina, Inc., as authorized by the Appropriations Act of 2013 (S.L. 2013-360, as amended by S.L. 2013-363). Other topics addressed include:

- North Carolina's competitive outlook;
- Economic impact of the 2012 Biggert-Waters Flood Insurance Reform Act;
- Targeting job creation in areas with high unemployment;
- Best practices for public private partnerships; and
- Innovation.

Appendix B contains a copy of the Committee's agenda for each meeting. All of the materials distributed at the meetings may be viewed on the Committee's website.²

5 **PART I. AUTHORIZE CONTRACTING OF ECONOMIC DEVELOPMENT**
6 **FUNCTIONS BY THE DEPARTMENT OF COMMERCE**

7 **SECTION 1.1.(a)** Part 1 of Article 10 of Chapter 143B of the General Statutes is
8 amended by adding a new section to read:

9 "**§ 143B-431A. Department of Commerce – contracting of functions.**

10 (a) Purpose. – The purpose of this section is to establish a framework whereby the
11 Department of Commerce may support through financial and other means a nonprofit
12 corporation that will render advisory, research, and recruiting recommendations regarding
13 incentives or grant awards for fostering and retaining jobs and business development,
14 marketing, and consultation in the development of a comprehensive, long-range strategic plan
15 for economic development through public and private means. It is the intent of the General
16 Assembly that the Department develops a plan to work cooperatively with a nonprofit
17 corporation for these purposes while safeguarding programmatic transparency and
18 accountability as well as the fiscal integrity of economic development programs of the State.

19 (b) Contract. – The Department of Commerce is authorized to contract with a North
20 Carolina nonprofit corporation to perform one or more of the Department's functions, powers,
21 duties, and obligations set forth in G.S. 143B-431, except as provided in this subsection. If the
22 Department contracts with a North Carolina nonprofit corporation to promote and grow the
23 travel and tourism industries, then all funds appropriated to the Department for tourism
24 marketing purposes shall be used for a research-based comprehensive marketing program
25 directed toward consumers in key markets most likely to travel to North Carolina and not for
26 ancillary activities, such as statewide branding and business development marketing. The
27 Department may not contract with a North Carolina nonprofit corporation regarding any of the
28 following:

- 29 (1) The obligation or commitment of funds under this Article, such as the One
30 North Carolina Fund, the Job Development Investment Grant Program, the
31 Industrial Development Fund, or the Job Maintenance and Capital
32 Development Fund.
33 (2) The Division of Employment Security, including the administration of
34 unemployment insurance.

1 (3) The functions set forth in G.S. 143B-431(a)(2).

2 (4) The administration of funds or grants received from the federal government
3 or its agencies.

4 (c) Oversight. – There is established the Economic Development Accountability &
5 Standards Committee, which is a Board as that term is defined in G.S. 138A-3 of the State
6 Government Ethics Act. The Committee shall consist of seven members as follows: the
7 Secretary of Commerce as Chair of the Committee, the Secretary of Transportation, the
8 Secretary of Environment and Natural Resources, the Secretary of Revenue, one member
9 appointed by the Speaker of the House of Representatives, one member appointed by the
10 President Pro Tempore of the Senate, and one member jointly appointed by the Speaker of the
11 House of Representatives and the President Pro Tempore of the Senate.

12 The members of the Committee who are appointed by the Speaker of the House of
13 Representatives or by the President Pro Tempore of the Senate may not be members of the
14 General Assembly. The Committee shall meet at least quarterly upon the call of the chair. The
15 duties of the Committee shall include all of the following:

17 pursuant to this section by the Department with a North Carolina nonprofit
18 corporation.

24 auditors of the Department, of the records of the North Carolina nonprofit

26 section during and after the term of the contract to verify data affecting
27 performance and reports.

28 (5) Coordination of economic development grant programs of the State between
29 the Department of Commerce, the Department of Transportation, and the
30 Department of Environment and Natural Resources.

31 (6) Any other duties deemed necessary by the Committee.

32 (d) Limitations. – Prior to contracting with a North Carolina nonprofit corporation
33 pursuant to this section and in order for the North Carolina nonprofit corporation to receive
34 State funds, the following conditions shall be met:

35 (1) At least 45 days prior to entering into or amending in a nontechnical manner
36 a contract authorized by this section, the Department shall submit the
37 contract or amendment, along with a detailed explanation of the contract or

No board member shall attempt to profit from a proposed project of the Department if the profit is greater than that which would be realized by other persons living in the area where the project is located. If the profit under this sub-subdivision would be greater for the board member than other persons living in the area where the project is located, not only shall the member abstain from voting on that issue, but once the conflict of interest is apparent, the member shall not discuss the project with any other board member or other officer or employee of the Department except to state that a conflict of interest exists. Under this sub-subdivision, a board member is presumed to profit if the profit would be realized by a board member's immediate family, a business with which the board member or the board member's immediate family has a business association, or a client of the board member or the board member's immediate family with whom the board member, or the board member's immediate family, has an existing business relationship for matters before the board. 43 to be used.

44 (2) The travel and personnel policies and regulations of the State of North

32 ~~and each annual update shall extend the time frame by one year so that a four-year plan is~~
33 ~~always in effect. The Board Secretary shall provide copies of the Plan and each annual update~~
34 ~~to the Governor and the Joint Legislative Commission on Governmental Operations. The Plan~~
35 ~~shall encompass all of the components set out in this section.~~

36 (c) Purpose. – The purpose of this section is to require the ~~Board Secretary~~ to apply
37 strategic planning principles to its economic development efforts. This requirement is expected
38 to result in:

39 (1) The selection of a set of priority development objectives that recognizes the
40 increasingly competitive economic environment and addresses the changing
41 needs of the State in a more comprehensive manner.

42 (2) The effective utilization of available and limited resources.

43 (3) A commitment to achieve priority objectives and to sustain the process.

44 (d) (1) Public and Private Input. – At each stage as it develops and updates the Plan,
45 the ~~Board Secretary~~ shall solicit input from all parties involved in economic
46 development in North Carolina, including:

47 a. Each of the programs and organizations that, for State budget
48 purposes, identifies economic development as one of its global goals.

49 b. Local economic development departments and regional economic
50 development organizations.

51 c. The Board of Governors of The University of North Carolina.

- 1 (2) The Board-Secretary shall also hold hearings in each of the Regions to solicit
2 public input on economic development before the initial Plan is completed.
3 The purposes of the public hearings are to:
4 a. Assess the strengths and weaknesses of recent regional economic
5 performance.
6 b. Examine the status and competitive position of the regional resource
7 base.
8 c. Identify and seek input on issues that are key to improving the
9 economic well-being of the Region.

10 The Board-Secretary shall hold additional hearings from time to time to
11 solicit public input regarding economic development activities.

- 12 (3) Each component of the Plan shall be based on this broad input and, to the
13 extent possible, upon a consensus among all affected parties. The Board
14 Secretary shall coordinate its planning process with any State capital
15 development planning efforts affecting State infrastructure such as roads and
16 water and sewer facilities.

17 (e) Environmental Scan. – The first step in developing the Plan shall be to develop an
18 environmental scan based on the input from economic development parties and the public and
19 on information about the economic environment in North Carolina. To prepare the scan, the
20 Board-Secretary shall gather the ~~following~~ information required in this subsection and ensure
21 that the information is updated periodically. The updated information may be provided in
22 whatever format and through whatever means is most efficient. The information required to
23 prepare the scan includes all of the following:

24 ...

25 (f) Repealed by Session Laws 2012-142, s. 13.4(a), effective July 1, 2012.

26 (g) Vision and Mission Statements. – The Board-Secretary shall develop a vision
27 statement for economic development that would describe the preferred future for North
28 Carolina and what North Carolina would be like if all economic development efforts were
29 successful. The Board-Secretary shall then develop a mission statement that outlines the basic
30 purpose of each of North Carolina's economic development programs. Because special purpose
31 nonprofit organizations are uniquely situated to conduct the entrepreneurial and high-risk
32 activity of investing in and supporting new business creation in the State, they should be
33 assigned a dominant role in this key component of economic development activity.

34 (h) Goals and Objectives. – The Board-Secretary, using data from the public input and
35 the environmental scan, shall formulate a list of goals and objectives. Goals shall be
36 long-range, four years or more, and shall address both needs of economically distressed
37 Regions and counties as well as opportunities for Regions and counties not distressed. The
38 goals shall be developed with realism but should also be selected so as to encourage every
39 Region and county within the State to develop to its maximum potential. Objectives shall be
40 one year or less in scope and shall, if achieved, lead to the realization of the goals formulated
41 by the Board-Secretary as provided in this section.

42 Both goals and objectives should be stated largely in economic terms, that is, they should
43 be related to specific population, employment, demographic targets, or economic sector targets.
44 Both efficiency and equity considerations are to be addressed and balanced with special
45 emphasis placed on the needs of disadvantaged or economically distressed populations and
46 communities. The goals and objectives should not state how the economic targets are to be
47 reached, but rather what the economic conditions will be if they are obtained. So that the
48 progress of North Carolina's economic development efforts can be monitored, the Board
49 Secretary shall set objectives for each goal that allow measurement of progress toward the goal.
50 Objectives should be quantifiable and time-specific in order to serve as performance indicators.

51 ...

1 (j) Implementation Plan. – Based upon all of the foregoing steps, the ~~Board-Secretary~~
2 shall establish an implementation plan assigning to the appropriate parties specific
3 responsibilities for meeting measurable objectives. The implementation plan shall contain all
4 necessary elements so that it may be used as a means to monitor performance, guide
5 appropriations, and evaluate the outcomes of the parties involved in economic development in
6 the State.

7 (k) Annual Evaluation. – The ~~Board-Secretary~~ shall annually evaluate the State's
8 economic performance based upon the statistics listed in this subsection and upon the ~~Board's~~
9 ~~Secretary's~~ stated goals and objectives in its Plan. The statistics upon which the evaluation is
10 made should be available to policymakers. The information may be provided in whatever
11 format and through whatever means is most efficient.

12 ...

13 (l) Accountability. – The ~~Board-Secretary~~ shall make all data, plans, and reports
14 available to the General Assembly, the Joint Legislative Commission on Governmental
15 Operations, the Joint Legislative Economic Development and Global Engagement Oversight
16 Committee, the Senate Appropriations Committee on Natural and Economic Resources, and the
17 House of Representatives Appropriations Subcommittee on Natural and Economic Resources at
18 appropriate times and upon request. The ~~Board-Secretary~~ shall prepare and make available on
19 an annual basis public reports on each of the major sections of the Plan and the Annual Report
20 indicating the degree of success in attaining each development objective."

Bill Draft 2013-MCz-231*: NC Econ. Dev. Partnership Modifications.

2013-2014 General Assembly

Committee:	Joint Legislative Economic Development and Global Engagement Oversight Committee	Date:	March 31, 2014
Introduced by:	Sen. Brown, Rep. Murry	Prepared by:	Dan Etefagh
Analysis of:	2013-MCz-231*		Committee Counsel

SUMMARY: Senate Bill 127 would (i) permit the Department of Commerce to contract with a North Carolina nonprofit corporation for the performance of certain economic development functions currently performed by the Department, (ii) eliminate the Economic Development Board, (iii) modify the duties and membership of the North Carolina Board of Science and Technology, and (iv) establish 8 geographic zones in the State for inter-departmental cooperation purposes.

BILL ANALYSIS:

Part I of the bill establishes the framework for the Department of Commerce to contract with a nonprofit corporation for advisory, research, and recruiting recommendations regarding economic development incentives or grant awards, and for marketing and consultation in the development of long-range economic development planning. The bill incorporates a number of requirements regarding contracting that can be broadly categorized as follows: limitations on scope, oversight requirements, contractual pre-requisites, mandatory contract terms, reporting requirements, applicability of laws provisions.

Limitations on Scope: The contract for performance is limited in scope by disallowing for the contracting of the following economic development functions of the Department:

- The obligation or commitment of funds under Article 10 (Commerce) of Chapter 143B of the General Statutes; however, recruitment, negotiation, and recommendations relating to economic development programs would fall within the purview of the nonprofit corporation.
- The Division of Employment Security, including the administration of unemployment insurance.
- The functions, powers, duties, and obligations vested in the State Board of Alcoholic Control, the North Carolina Utilities Commission, the North Carolina Industrial Commission, the State Banking Commission and the Commissioner of Banks, the Savings Institutions Division, the Credit Union Commission, the North Carolina Mutual Burial Association Commission, and the North Carolina Rural Electrification Authority.
- The administration of federal funds or grants.

Oversight: A nonprofit corporation contracted with by the Department would be overseen by an Economic Development Accountability & Standards Committee, consisting of the Secretaries of Commerce (Chair), Transportation, Environment and Natural Resources, and Revenue, one member appointed by the Speaker of the House, one member appointed by the President Pro Tempore of the Senate, and one member jointly appointed by the Speaker and President Pro Temp. No member may be a member of the General Assembly. The Committee would meet at least quarterly and would function to do the following:

- Monitor/oversee the performance of the contract by the nonprofit corporation.

- Receive, review, and refer complaints, as appropriate.
- Request enforcement of the contract by the Attorney General or the Department.
- Audit the records of the nonprofit corporation to verify data affecting performance and reports.
- Coordinate economic development grant programs between the Departments of Commerce, Transportation, and Environment and Natural Resources.
- Perform other contractual duties.

Contractual Pre-requisites: The contractual authority granted in the bill and the permission to receive State funds by a nonprofit pursuant to a contract do not arise until certain prerequisites are satisfied, as follows:

- At least 45 days prior to entering or substantively amending the contract, the Department submits the contract and a detailed explanation to GovOps and the Fiscal Research Division.
- The nonprofit corporation's governing board meets the following requirements:
 - It is composed of 17 members (9 Governor appointees, including the chair, 4 Senate appointees, and 4 House appointees). The appointees must reflect the geographic diversity of the State, and the Governor's appointees must meet expertise requirements.
 - No member of the board may take actions or use their position for self, business, or familial profit.
 - No State officer or employee may serve on the board.
 - The board must meet at least quarterly and report to the Economic Development Accountability & Standards Committee on economic development progress.
- The amount of State funds used for annual salaries for individual employees and officers of the corporation is capped at \$120,000 per annum.
- *The nonprofit corporation receives from sources other than the State funds totaling at least \$10M.*

Mandatory Contract Terms: A contract authorized by the bill must contain the following terms:

- A provision requiring annual audited financial statements be submitted within 7 days of issuance to the Fiscal Research Division, the Joint Legislative Economic Development and Global Engagement Oversight Committee, and the Department.
- A provision requiring annual reporting to the Department on program activities, objectives, accomplishments, expenditures, and fund sources, as well as anticipated and resulting jobs from the nonprofit's activities, itemized performance metrics, proposed amendments to areas of expertise for the governing board, *and an explanation of how salaries are determined (base pay and incentive pay, including incentives designed to aid rural/low-income area development).*
- A provision requiring that, upon termination or enforcement of the contract or upon repeal of the charter of the corporation, the corporation's assets and funds (including those of affiliated and subsidiary entities) must be returned to the Department *within 30 days (during which no*

further encumbering may occur). Legally obligated funds are used pursuant to the obligation; other funds are returned to the General Fund.

- A provision requiring that any recommendations or advice to the Department include a disclosure of whether the corporation has received from an entity that is the subject of the recommendation or advice anything of value for which full consideration was not paid, including the amount and date of the gift.
- *A provision requiring the corporation to maintain a website for disclosure, within 30 days, of (i) gifts, contributions, items/services of value for which FMV was not paid, including date, amount, and donor of the gift and whether the donor has a contract with the State and (ii) disbursement (including amount, recipient, purpose and date) of funds awarded, granted or loaned by the corporation.*
- *A provision encouraging the corporation to fundraise from sources unlikely to seek incentives from the State.*
- *A provision requiring separate accounts and bookkeeping by the corporation for State and private funds and prohibiting commingling of funds.*
- *A provision requiring lending, awarding, or granting of funds by the corporation to be in writing and signed by the Board to be legal and enforceable.*
- *A provision limiting the term and renewal provisions of the contract between the Department and the nonprofit corporation. The maximum initial term is 4 years. The maximum number of term extensions is 4. The maximum single term extension is 1 year. No extension may occur prior to $\frac{3}{4}$ of the initial term passing.*
- *A provision limiting the severance pay of the chief officers to the lesser of \$120,000 or (number of whole years in chief officer position/4) x (\$120,000).*
- *An annual certification that the corporation is in compliance with the North Carolina Nonprofit Corporation Act and has complied with all mandatory contract terms (or an explanation of noncompliance).*
- *A provision requiring the corporation contract with OSBM for performance review, including verifying disbursements and entitlement to reimbursement by the Department. The audit must comply with GAAP requirements.*

Reporting and Applicability of Laws: The Department must annually report to EDGE, GovOps, and the Fiscal Research Division on any performance for which the Department has contracted with a nonprofit corporation. The report must contain the report received by the Department from the nonprofit, an executive summary of that report, a listing of each entity for which the corporation has recommended awards, *an explanation of response by the Department for corporate noncompliance with mandatory contract terms, and any soliciting of funds by the Secretary of Commerce on behalf of the corporation.* A corporation contracted with must adhere to public records laws and open meetings laws, *and corporate personnel is subject to the State Ethics Act. Interest earned on State funds must be used for the same purposes as the principal, and travel and personnel expenses reimbursed by State funds must adhere to reimbursement limitations in the North Carolina Budget manual used for State employees.*

The draft makes clear the Secretary can engage in solicitation of funds for the corporation, but other State employees cannot engage in solicitation of funds for the corporation. In addition, corporate

personnel are not State employees, are not covered by the State Personnel Act, and are not entitled to State-funded employee benefits.

The remaining provisions of Part I include (i) a repeal of the Economic Development Board, (ii) an authorization to allow the Secretary to delegate the Secretary's responsibilities with respect to a comprehensive strategic economic development plan to the governance board of the nonprofit corporation with which the Department has contracted, (iii) a requirement that the governing board of the nonprofit corporation continue functions previously performed by the Economic Development Board, (iv) an exemption for Collaboration for Prosperity Zone liaisons and officers, board members, and employees of the nonprofit corporation from certain provisions of the State Personnel Act, and (v) *a requirement that the Department study and develop:*

- *A plan for private fundraising efforts for the nonprofit corporation, including private fundraising potential, private fundraising in other states, creating a budget for the corporation without private fundraising and comparing the budget with amounts required by the Department for the same functions.*
- *A report on various performance metrics for the Department for the last year and annual averages for the last 5- and 10-year periods. The Department must report to OSBM, GovOps, EDGE, and FRD no later than 12/1/14, and the Department must require the nonprofit corporation to report on the same metrics for comparison purposes to Departmental performance.*

Part I of the bill repeals the budgetary provision authorizing privatization of Departmental functions.

Part II of the bill renames the North Carolina Board of Science and Technology as the North Carolina Board of Science, Technology, and Innovation, which would gain the duty to advise and make recommendations to the nonprofit corporation on the role of science, technology, and innovation. The composition of the Board would be changed, increasing from 17 to 23 members. New members include one member of the North Carolina Community Colleges System, one member representing K-12 public education, 2 additional private industry members, and 7 at-large members. Of the existing two members appointed by the Governor from components of The University of North Carolina system other than UNC-CH and NCSU, one member must be from a historically black college or university. Eliminated members include one member from the Research Triangle Institute (nominated by its executive committee), one member from the Microelectronics Center of NC (nominated by its executive committee), one member from the Biotechnology Center (nominated by its executive committee), and two members from public agencies in the State. An additional elimination is the requirement that at least one member be a professional, registered engineer with a degree from an accredited college or university.

Part III of the bill divides the State into 8 geographic regions to facilitate collaborative and coordinated planning and resource use, improve cooperation, facilitate increased efficiencies, receive advice on economic development issues by local boards established by a nonprofit corporation, and establish one-stop assistance in each region for citizens and businesses. The bill would require that the Departments of Commerce, Environment and Natural Resources, and Transportation each provide one employee to each regional office to serve as that department's liaison with other departments and with local governments, schools and colleges, businesses, and other developmental planning bodies. The Community Colleges System Office and *State Board of Education* would also be required to designate one representative to serve as a liaison in each zone. Office location shall be jointly selected, and Commerce would be authorized to contract with the nonprofit corporation to fulfill the Department's liaison responsibilities. Part IV includes reporting requirements on the establishment and activities of

Draft

Page 5

liaisons by Commerce, the Community Colleges System Office, *the State Board of Education*, the Department of Transportation and DENR. *Finally, Part IV modifies the existing educational districts to match the Prosperity Zone composition.*

Part V of the bill creates the Study Commission on Interagency Collaboration for Prosperity, consisting of 8 members, 4 from each legislative chamber. The Commission must review the reports required in Part IV of the bill and make recommendations to and report to the 2015 Regular Session of the General Assembly on issues that would increase efficiency and collaboration regarding business and economic development and recruitment and the use of resources.

EFFECTIVE DATE: Other than the repeal of the budgetary privatization provision, which becomes effective when the act becomes law, Parts I and III become effective 7/1/14. Part IV becomes effective 7/1/14 and expires 7/1/18. The remainder of the act is effective when it becomes law.

BILL DRAFT 2013-MCz-214 [v.12] (02/10)

(THIS IS A DRAFT AND IS NOT READY FOR INTRODUCTION)
4/2/2014 4:46:25 PM

Short Title: Patent Abuse Bill.

(Public)

Sponsors: Representative Murry.

Referred to:

1 A BILL TO BE ENTITLED
2 AN ACT TO PREVENT THE ABUSIVE USE OF PATENTS.
3 The General Assembly of North Carolina enacts:
4 SECTION 1. Chapter 75 of the General Statutes is amended by adding a new
5 Article to read:

6 "Article 8.

7 "Abusive Patent Assertions.

8 "§ 75-136. Title.

9 This Article shall be known and may be cited as the "Abusive Patent Assertions Act"

10 "§ 75-137. Purpose.

11 (a) The General Assembly finds the following:

12 (1) North Carolina is home to a growing high-technology, knowledge-based
13 economy. With its top-tier research universities and active technology
14 sector, North Carolina is poised to continue its growth. To continue growing,
15 North Carolina must attract new, small, or mid-sized technology companies.
16 Doing so will help provide jobs for North Carolina's residents and boost
17 North Carolina's economy. North Carolina also is home to companies in
18 retail, manufacturing, and other industries, many of whom are customers of
19 technology companies. Those other businesses are more likely to succeed if
20 not inhibited by abusive and bad faith demands and litigation.

21 (2) Patents encourage research, development, and innovation. Patent holders
22 have legitimate rights to enforce their patents.

23 (3) The General Assembly does not wish to interfere with good faith patent
24 litigation or the good faith enforcement of patents. The General Assembly
25 also recognizes that North Carolina is preempted from passing any law that
26 conflicts with federal patent law.

27 (4) Patent litigation can be technical, complex, and expensive. The expense of
28 patent litigation, which may cost millions of dollars, can be a significant
29 burden on small- and medium-sized companies. North Carolina wishes to
30 help its businesses avoid these costs by encouraging the most efficient
31 resolution of patent infringement claims without conflicting with federal
32 law.

33 (5) In order for North Carolina companies to be able to respond promptly and
34 efficiently to patent infringement assertions against them, it is necessary that

* 2 0 1 3 - M C Z - 2 1 4 - V - 1 2 *

1 they receive specific information regarding how their product, service, or
2 technology may have infringed the patent at issue. Receiving this
3 information at an early stage will facilitate the resolution of claims and
4 lessen the burden of potential litigation on North Carolina companies.

5 (6) Abusive patent litigation, and especially the assertion of bad faith
6 infringement claims, can harm North Carolina companies. A business that
7 receives a letter asserting such claims faces the threat of expensive and
8 protracted litigation and may feel that it has no choice but to settle and to
9 pay a licensing fee, even if the claim is meritless. This is especially so for
10 small and medium sized companies and nonprofits that lack the resources to
11 investigate and defend themselves against infringement claims.

12 (7) Not only do bad faith patent infringement claims impose a significant burden
13 on individual North Carolina businesses, they also undermine North
14 Carolina's efforts to attract and nurture technology and other companies.
15 Funds used to avoid the threat of bad faith litigation are no longer available
16 to invest, produce new products, expand, or hire new workers, thereby
17 harming North Carolina's economy.

18 (8) North Carolina has a strong interest in patent matters involving its citizens
19 and its businesses, including protecting its citizens and businesses against
20 abusive patent assertions and ensuring North Carolina companies are not
21 subjected to abusive patent assertion by entities acting in bad faith.

22 (9) In lawsuits involving abusive patent assertions, an accused infringer
23 prevailing on the merits will usually be awarded its costs, and less
24 frequently, its fees. These awards do not serve as a deterrent to abusive
25 patent assertion entities who have limited liability, as these companies may
26 hold no cash or other assets. North Carolina has a strong interest in making
27 sure that prevailing North Carolina companies sued by abusive patent
28 assertion entities can recover what is awarded to them.

29 (b) The General Assembly seeks, by this narrowly tailored act, to strike a balance
30 between (i) the interests of efficient and prompt resolution of patent infringement claims,
31 protection of North Carolina businesses from abusive and bad faith assertions of patent
32 infringement, and building of North Carolina's economy and (ii) the intentions to respect
33 federal law and be careful to not interfere with legitimate patent enforcement actions.

34 **"§ 75-138. Definitions.**

35 The following definitions apply in this Article:

36 (1) Demand. – A letter, e-mail, or other communication asserting or claiming
37 that a target has engaged in patent infringement or should obtain a license to
38 a patent.

39 (2) Target. – A North Carolina person that meets one or more of the following:
40 a. The person has received a demand or is the subject of an assertion or
41 allegation of patent infringement.
42 b. The person has been threatened with litigation or is the defendant of
43 a filed lawsuit alleging patent infringement.
44 c. The person has customers who have received a demand asserting that
45 the person's product, service, or technology has infringed a patent.

46 (3) Interested Party. – A person, other than the party alleging infringement, that
47 (i) is an assignee of the patent or patents at issue; (ii) has a right, including a
48 contingent right, to enforce or sublicense the patent or patents at issue; or
49 (iii) has a direct financial interest in the patent or patents at issue, including
50 the right to any part of an award of damages or any part of licensing revenue.
51 A "direct financial interest" does not include either of the following:

- 1 a. An attorney or law firm providing legal representation in the civil
2 action described in sub-subdivision b. of subdivision (2) of this
3 section if the sole basis for the financial interest of the attorney or
4 law firm in the patent or patents at issue arises from the attorney or
5 law firm's receipt of compensation reasonably related to the
6 provision of the legal representation.
7 b. A person whose sole financial interest in the patent or patents at issue
8 is ownership of an equity interest in the party alleging infringement,
9 unless such person also has the right or ability to influence, direct, or
10 control the civil action.

11 **"§ 75-139. Abusive Patent Assertions.**

12 (a) It is unlawful for a person to make a bad faith assertion of patent infringement. A
13 court may consider the following factors as evidence that a person has made a bad faith
14 assertion of patent infringement:

- 15 (1) The demand does not contain all of the following information:
16 a. The patent application number or patent number.
17 b. The name and address of the patent owner or owners and assignee or
18 assignees, if any.
19 c. Factual allegations concerning the specific areas in which the target's
20 products, services, and technology infringe the patent or are covered
21 by specific, identified claims in the patent.
22 d. An explanation of why the person making the assertion has standing,
23 if the United States Patent and Trademark Office's assignment
24 system does not identify the person asserting the patent as the owner.
25 (2) Prior to sending the demand, the person failed to conduct an analysis
26 comparing the claims in the patent to the target's products, services, and
27 technology, or the analysis was done but does not identify specific areas in
28 which the products, services, and technology are covered by the claims in
29 the patent.
30 (3) The demand lacks the information described in subdivision (1) of this
31 subsection, the target requests the information, and the person fails to
32 provide the information within a reasonable period of time.
33 (4) The person demands payment of a license fee or response within an
34 unreasonably short period of time.
35 (5) The person offers to license the patent for an amount that is not based on a
36 reasonable estimate of the value of the license, or the person offers to license
37 the patent for an amount that is based on the cost of defending a potential or
38 actual lawsuit.
39 (6) The claim or assertion of patent infringement is meritless, and the person
40 knew or should have known that the claim or assertion is meritless; or the
41 claim or assertion relies on an interpretation of the patent that was
42 disclaimed during prosecution and the person making the claim or assertion
43 knows or should have known about the disclaimer, or would have known
44 about the disclaimer if the person reviewed the patent's prosecution history.
45 (7) The claim or assertion of patent infringement is deceptive.
46 (8) The person or its subsidiaries or affiliates have previously or concurrently
47 filed or threatened to file one or more lawsuits based on the same or similar
48 claim of patent infringement and (i) those threats or lawsuits lacked the
49 information described in subdivision (1) of this subsection or (ii) the person
50 attempted to enforce the claim of patent infringement in litigation and a
51 court found the claim to be meritless.

- 1 (9) The person making the claim or assertion sent the same demand or
2 substantially the same demand to multiple recipients and made assertions
3 against a wide variety of products and systems without reflecting those
4 differences in a reasonable manner in the demands.
- 5 (10) The person making the claim or assertion is aware of, but does not disclose,
6 any final, non-final, or preliminary post-grant finding of invalidity or
7 unpatentability involving the patent.
- 8 (11) The person making the claim or assertion seeks an injunction when that is
9 objectively unreasonable under the law.
- 10 (12) Any other factor the court finds relevant.

11 (b) A court may consider the following factors as evidence that a person has not made a
12 bad faith assertion of patent infringement:

- 13 (1) The demand contains the information described in subdivision (a)(1) of this
14 section.
- 15 (2) Where the demand lacks the information described in subdivision (a)(1) of
16 this section and the target requests the information, the person provides the
17 information within a reasonable period of time.
- 18 (3) The person engages in a good faith effort to establish that the target has
19 infringed the patent and to negotiate an appropriate remedy.
- 20 (4) The person makes a substantial investment in the use of the patent or in the
21 production or sale of a product or item that the person reasonably believes is
22 covered by the patent. "Use of the patent" in the preceding sentence means
23 actual practice of the patent and does not include licensing without actual
24 practice.
- 25 (5) The person is either (i) the inventor or joint inventor of the patent or, in the
26 case of a patent filed by and awarded to an assignee of the original inventor
27 or joint inventor, is the original assignee or (ii) an institution of higher
28 education or a technology transfer organization owned or affiliated with an
29 institution of higher education.
- 30 (6) The person has demonstrated good faith business practices in previous
31 efforts to enforce the patent, or a substantially similar patent, or has
32 successfully enforced the patent, or a substantially similar patent, through
33 litigation.
- 34 (7) Any other factor the court finds relevant.

35 (c) Nothing in this Article shall be construed to apply a demand letter or assertion of
36 patent infringement arising under 35 U.S.C. 271(e)(2) or 42 U.S.C. 262.

37 (d) Subject to the provisions of subsections (a) and (b) of this section and provided the
38 activities are not carried out in bad faith, nothing in this section shall be construed to deem it an
39 unlawful practice, in and of itself, for any person who owns or has the right to license or
40 enforce a patent to do any of the following:

- 41 (1) Advise others of that ownership or right of license or enforcement.
- 42 (2) Communicate to others that the patent is available for license or sale.
- 43 (3) Notify another of the infringement of the patent.
- 44 (4) Seek compensation on account of past or present infringement or for a
45 license to the patent.

46 "**§ 75-140. Bond.**

47 (a) Upon motion by a target and a finding by the court that a target has established a
48 reasonable likelihood that a person has made a bad faith assertion of patent infringement in
49 violation of this chapter, the court shall require the person to post a bond in an amount equal to
50 a good faith estimate of the target's fees and costs to litigate the claim and amounts reasonably
51 likely to be recovered under G.S. 75-141, conditioned upon payment of any amounts finally

1 determined to be due to the target. A hearing shall be held if either party so requests. A bond
2 ordered pursuant to this section shall not exceed \$500,000.00.

3 (b) The court may waive the bond requirement of subsection (a) of this section if it
4 finds the person has available assets equal to the amount of the proposed bond or for other good
5 cause shown.

6 (c) If the person asserting patent infringement cannot pay any fees or costs ordered by
7 any court in a matter related to the same asserted patent infringement, those fees or costs shall
8 be paid out of the bond posted under subsection (a) of this section, without affecting the
9 obligation of the person asserting patent infringement to pay any remainder of those fees or
10 costs not paid out of the bond.

11 **"§ 75-141. Enforcement; Remedies; Damages.**

12 (a) The Attorney General shall have the same authority under this Chapter to make
13 rules, conduct civil investigations, bring civil actions, and enter into assurances of
14 discontinuance as provided under this Chapter. In an action brought by the Attorney General
15 pursuant to this section, the court may award or impose any relief available under this Chapter.

16 (b) A target or a person aggrieved by a violation of this Chapter or by a violation of
17 rules adopted under this Chapter, may bring an action in Superior Court against a person that
18 has made a bad faith assertion of patent infringement. A court may award to a plaintiff who
19 prevails in an action brought pursuant to this subsection one or more of the following remedies:

20 (1) Equitable relief.

28 substantial interest in the patent or patents at issue other than making demands or asserting such
29 patent claim in litigation.

30 (d) In an action arising under subsections (a) or (b) of this section, any person who has
31 delivered or sent a demand to a target in North Carolina has purposefully availed himself of the
32 privileges of conducting business in this State and shall be subject to suit in this State, whether
33 or not the person is transacting or has transacted any other business in this State. This Chapter
34 shall be construed as a special jurisdiction statute in accordance with G.S. 1-75.4(2).

35 (e) If a party is unable to pay any amount awarded by the court pursuant to subsections
36 (a) or (b) of this section, the court may find any interested party joined pursuant to subsection
37 (c) of this section jointly and severally liable for the abusive patent assertion and make the
38 award recoverable against any or all of the joined interested parties.

39 (f) This Chapter shall not be construed to limit rights and remedies available to the
40 State of North Carolina or to any person under any other law and shall not alter or restrict the
41 Attorney General's authority under this Chapter with regard to conduct involving assertions of
42 patent infringement."

48 (b) A person is guilty of extortion under this section when the person intentionally
49 obtains or attempts to obtain property of another by making or threatening to make an abusive
50 patent assertion under G.S. 75-139 against the other person. For purposes of this subsection, a
51 "person" means an individual, agent, company, firm, or corporation."

Bill Draft 2013-MCz-214: Patent Abuse Bill.

2013-2014 General Assembly

Committee: Joint Legislative Economic Development and Global Engagement Oversight Committee **Date:** April 1, 2014

Analysis of: 2013-MC-214 **Prepared by:** Dan Etefagh
Committee Counsel

SUMMARY: *This bill would create a civil and criminal cause of action against bad faith assertions of patent infringement, would require the posting of a bond sufficient to cover the litigation fees and costs of a target of an assertion in the event the court found a reasonable likelihood of a bad faith assertion of patent infringement, would empower the Attorney General to investigate and enforce the provisions relating to bad faith assertions of patent infringement, and would authorize treble damages for target who prevail in a case involving bad faith assertions of patent infringement.*

CURRENT LAW: Patent law is primarily governed by and preempted by federal law, which limits when a state may govern or regulate patentable subject matter. In 1999, the federal circuit held that patent law does not preempt allegations of state-law unfair competition where such requires a showing of bad faith. *Zenith Elecs. Corp. v. Exzec, Inc.*, 182 F.3d 1340 (Fed. Cir. 1999). In 2004, the court elaborated by saying that, to survive federal preemption, the allegedly bad-faith patent assertion “must be objectively baseless in the sense that no reasonable litigant could realistically expect success on the merits. If an objective litigant could conclude that the suit is reasonably calculated to elicit a favorable outcome, the suit is immunized.” *Globetrotter Software, Inc. v. Elan Computer Group. Inc.*, 362 F.3d 1367 (Fed. Cir. 2004). The objective baselessness standard is not the basis of the state court action contemplated by the bill; therefore, the legislation could be attacked on the grounds that it allows for application in instances that would result in federal preemption; the proposed statute might withstand scrutiny if it is enforced with precision only against persons asserting claims that are objectively baseless.

BILL ANALYSIS: Section 1 of the bill would make bad faith assertions of patent infringement an unfair and deceptive trade practice. The assertion involves communicating that patent infringement has occurred or that certain entities need to license a patent. The entities to whom the communication is made is a "target," which can be the person receiving the demand or assertion of patent infringement, a person threatened with or made the defendant of patent litigation, or a person with customers who have received a demand asserting patent infringement.

To aid the court in determining whether actions are taken in good or bad faith, the bill sets forth a number of non-exclusive factors the court can weigh. Factors indicating bad faith include:

- The demand does not contain the patent number/patent application number, name and address of patent owner/s and assignee/s, specific identification of areas of infringement, and an explanation of why the person making the assertion has standing (where they are not identified as the patent owner). An additional factor includes failing to respond to a request for this same information within a reasonable time.
- The person making the assertion did not analyze the claims in the patent to the alleged infringing device or activity.

- The person making the assertion demands licensing or response within an unreasonably short period of time.
- The person making the assertion offers to license the patent for an amount unrelated to the reasonable estimate of the value of the license or bases the license fee on the cost of litigation.
- The claim of infringement is meritless and the person making the assertion knew/should have known it is meritless. Alternatively, the factor is satisfied if a claimant bases an assertion on a patent interpretation disclaimed during prosecution and knew or should have known about the disclaimer or would have known upon review of prosecution history.
- The assertion is deceptive.
- The person making the assertion has previously/concurrently filed/threatened to file other lawsuits based on the same/similar claim of patent infringement without the information required above or there has been a previous attempt to enforce the claim where the claim was found to be meritless.
- The person making the assertion has made substantially the same claim against multiple recipients against a wide variety of products without reflecting the differences in a reasonable manner in the various demands.
- The person making the assertion identifies but does not disclose any post-grand finding of invalidity or unpatentability involving the patent.
- The person making the assertion seeks an injunction that is objectively unreasonably under the law.
- Any other factor the court finds relevant.

Factors indicating good faith on the part of the person making the assertion:

- The demand contains the information described above or timely responds with the information upon demand.
- The person engages in a good faith effort to establish the target has infringed the patent and to negotiate an appropriate remedy.
- The person substantially invests in the use of the patent, which involves active practice and not licensing alone.
- The person is (i) the inventor/joint inventor or the original assignee or (ii) an institution of higher education/a technology transfer organization owned/affiliated with an institution of higher education.
- The person has demonstrated good faith business practices in previous efforts to enforce the patent/substantially similar patent or has successfully enforced the patent/substantially similar patent.
- Any other factor the court finds relevant.

Specifically exempted from the purview of the new statute are assertions of patent infringement concerning drugs and biological products regulated under the Food, Drug, and Cosmetic Act.

If the court determines there is a reasonable likelihood of bad faith patent assertion, the court must require the person making the assertion to post a bond estimated to equal the costs and fees to litigate the

claim and the amount likely to be recovered by the target due to the state claim created by the act. An exception to the bond mandate occurs where the person asserting the claim has assets equal to the amount of the proposed bond or good cause exists. The bond would be conditioned on a determination of an amount being finally determined to be due to the target and is capped at \$500,000. The bond does not insulate the person making a bad faith assertion from liability above the bond amount.

Other provisions of the civil cause of action include:

- The Attorney General is empowered to make rules, conduct investigations, bring civil actions, or enter assurances of discontinuance provided in Chapter 75 of the General Statutes.
- Damages authorized to be awarded to a target include equitable relief, damages, costs and fees, and exemplary damages equal to the greater of \$50,000 or three times the total of damages, costs, and fees.
- The court is permitted to join interested parties if the person asserting infringement has no substantial interest in the patent other than the assertion. Joined parties may be held jointly and severally liable if the party making the assertion is unable to pay amounts awarded.
- Making a demand to a North Carolina target subjects the person to the jurisdiction of North Carolina courts.

Section 2 of the bill would enlarge the criminal offence of extortion to include intentionally obtaining or attempting to obtain property by making or threatening an abusive patent assertion under G.S. 75-139. Extortion is a class F felony.

EFFECTIVE DATE: Section 1 of the bill creating the civil cause of action is effective when it becomes law and applies to causes of actions commenced on or after that date and demands made on or after that date. Section 2 of the bill enlarging the criminal offense of extortion becomes effective December 1, 2014, and applies to offenses committed on or after that date.

BACKGROUND: According to recent studies, people or companies that misuse patents as a business strategy ("patent trolling") has jumped by nearly 250%, rising from 29% of infringement suits to 62% of infringement suits in 2 years. As a result, the federal government has taken, is taking, or is contemplating the following courses of action:

- The DOJ Antitrust Division and FTC are jointly working towards modifying modern patent law to account for trolling practices. The FTC is actively investigating trolling activity and has stated its intention to use statutory authority, such as Section 5 of the FTC Act to prevent unfair and deceptive acts such as those typically employed by patent trolls.
- There have been federal legislation proposals that range from disclosure/transparency requirements to filing of written offers to settle + payment of offeror's costs/expenses where the ultimate result is less favorable than the offer).
- The President has ordered the PTO to adopt rules requiring patent applicants and owners involved in PTO proceedings to disclose real-party-in-interest information and creating a national, searchable database of patent infringement letters coupled with enabling the PTO or the district courts to impose sanctions for non-compliance.
- The AIA modified the patent system to allow for challenging business method patents via inter partes review, which replaced the old reexamination process, in order to be speedier.
